encounter difficulties with the installation, please follow these steps:

- 1. Validate that your device have been updated to the most recent IOS version available.
- 2. Be sure to uninstall any previous ClearD app that may still be on the device.
- 3. Clear the cache on all devices. If you are not sure how, Google "*How to clear the cache of a…*" with the model of your device.
- 4. Reboot each device.
- 5. Be sure to be on a stable and strong WIFI connection.
- 6. Download the application following the step by step instructions.

If you are still unable to download the app, you may need to contact your phone provider for assistance.
